Administration of the South-to-North Water Diversion Project, Hubei Bureau of Cultural Relics

(Wuhan, Hubei 430077)

Abstract: The Jianying site is located in Jianying Village, Xiaji Township, Xichuan County, Henan Province. The Archaeology Department of Wuhan University and the Henan Provincial Institute of Cultural Relics and Archaeology conducted the excavation, between July and September of 2011. In cooperation with the construction of Danjiangkou Reservoir that belongs to the Middle Route of the South-to-North Water Diversion Project, a settlement site of Han Dynasty was revealed. Pottery kiln, ash-pit, road, and drainage system were also found on the site. The excavation enriches the data in the study of archaeological culture and related issues in this area.

Keywords: Jianying Site, Han Dynasty, settlement site
